As one who is passionate about learning and teaching, full stack web development has been my truest source of joy. After earning a certificate in full stack development from the University of Utah, I have used my skills to tutor new students in the curriculum. I am eager to continue to learn so I may better support my students, build the applications I dream about, and act as a valuable asset to any workplace.

Education

Experience

2U - Remote

05/2021 - Present

Full Stack Web Developer Tutor

Coach and educate students with 2U's Full Stack Web Development bootcamps. Tutors are expected to develop student's problem solving skills as well as foster their mindsets to create success in the bootcamp and their careers

- Host weekly 1 on 1 sessions with students to identify where they are struggling, as to mentor their emotional/mindset needs or guide them toward understanding the technical curriculum
- Grow understanding of curriculum content and beyond to best educate students
- Engage with self development practices to best coach students on building their own success

Worthy - Murray, Utah
Account Executive

08/2019 - 07-2020

Helped build a startup company by connecting with clients, evaluating their fine jewelry, and working with them to sell their luxuries on an exclusive auction platform.

- Achieve daily metrics to reach GMV goals and drive company growth
- Collaborate with coworkers to improve and streamline company procedures
- Rewrote company sales templates to increase employee efficiency and increase client conversion
- Created Standard Operating Procedure documents to assist with cross-department workflows
